Replacement Stock

Rising 1 yr heifers tally -	On farm	-	\$BW	-
			\$PW	-
Rising 2 yr heifers tally -	On farm	-	\$BW	-
			\$PW	-

Additional Information

A very well presented herd that has a history of doing great production! Owners have put in big focus on udder conformation and capacity of herd over the past 12 years and the results are obvious.

Original herd purchased in 2014 as a pedigree Jersey LIC herd.

Since then, bred to mostly Friesian (very little KiwiX) through CRV - Nominated for most of that time but have used a "pack" since moving away from farm 2023.

Happy to DNA test any half recorded animals that are missing sire.
